ORIENTATION FOR ADOPTION EVALUATIONS

(Revised 5/06)

Background

1. Dr. David Lombard will be the only psychologist involved in your evaluation through our office. Dr. Lombard has been licensed in this state since 1999. Being licensed requires passing a national written examination and a written examination given by the Indiana State Psychology Examining Board. You may contact them with questions or concerns at 55 Monument Circle Suite 455, Indianapolis, Indiana 46204.

2. In this information sheet we will try to cover issues which come up frequently in adoption evaluations. Please take the time to read through it and then feel free to ask questions of Dr. Lombard in your initial appointment.

Purpose, Process, and Limitations of the Evaluation

1. It is important that you understand in advance that this is an independent evaluation. There is a possibility that Dr. Lombard's impressions may be unfavorable to your position. Dr. Lombard will be making recommendations consistent with the clinical interview, document review and psychological testing findings.

2. The evaluation itself will consist of interviews and psychological testing. The psychological testing allows Dr. Lombard to collect a wide range of data and organize the issues while minimizing cost to you. At the end of the evaluation, a report and recommendation will be provided to the appropriate parties depending on your case.

3. Dr. Lombard recognizes that his impressions are very important to you. However, please do not ask him to give you an opinion until he had had an opportunity to hear all information, review the psychological test results, and fully review the file. At that time, feedback will be given either verbally or in written form.

Confidentiality Issues

1. As Dr. Lombard begins the evaluation you will be asked to sign "Release of Information" forms. This allows Dr. Lombard to discuss this situation with anyone who he thinks would be helpful in coming to a recommendation. This also allows Dr. Lombard to talk to your adoption agency and submit reports to your adoption country (if required in your case). The laws of confidentiality might otherwise prevent him from doing so.

Evaluation Costs

1. The fee for a complete adoption evaluation is \$350 to be paid at the time of service. Dr. Lombard will accept cash, check, or credit cards. Dr. Lombard does not bill insurance companies for services rendered. However, Dr. Lombard will give you a detailed receipt for you to submit for reimbursement. Dr. Lombard cannot offer any guarantee that your insurance carrier will reimburse you for his services.

2. There will also be charges of \$150 for any missed or canceled appointment where 72 hour notice is not given. Any unpaid bills will accrue interest at the rate of 18% per annum. A \$20.00 surcharge will be assessed for any returned checks.

The Evaluation Process

The following describes the steps and the purposes of the procedures that are involved in this evaluation process. The description is being given so that you know what to expect as you decide to have an evaluation done and as you prepare for and go through this evaluation. This evaluation will follow a structured pattern to maximize the fairness and the objectivity of the report. However, Dr. Lombard may make changes in the process in a case by case basis due to the needs of each case.

1. At your initial appointment, you should bring any written documents that you might think would be relevant to your case. (It is very rare that additional background documents are needed in an adoption evaluation.) Please highlight the segments of the documents that you think are noteworthy.
2. In the first part of your clinical interview you and Dr. Lombard will review the consent for evaluation form, answer any questions you have, and have you sign that document. Also, if your specific country requires completion of specific paperwork, this will be when those documents will be reviewed. For example, certain eastern European countries have specific forms to be completed by the evaluator.
3. Dr. Lombard will conduct a detailed clinical interview with you and your spouse (if you are married). The interviews will have special focus on mental health issues and your readiness for adoption.
4. After the clinical interview(s), you will complete the Personality Assessment Inventory. This psychological test is one of the most researched and standardized tests in use today.
5. Following your structured interview and testing, releases of information will be signed so that the relevant records may be obtained and so that third-party individuals can be contacted who may be able to help with the evaluation.
6. Collaterals will be interviewed if appropriate.
7. All of the documents will be reviewed.
8. A follow-up interview will occur if needed in your case.
9. The payment is due on the day of your evaluation.
10. Changes may occur in the process due to the situation in each case. The evaluator still attempts to complete all the objectives of the evaluation.

If after reviewing this information you have questions, please be sure to discuss them with me at your initial interview when I will more fully explain the evaluation procedure you are about to begin.
